

H11

SUMMER-HP

The specially formulated compounds are **ECO-FRIENDLY**, highly fuel efficient and long lasting.

Shoulder Designed

The closed shoulder design strengthens shoulder blocks for superior handling performance.

Wet Performance

The three wide tread grooves and wave-like sipes efficiently drain water to improve grip on wet roads and improve driving safety.

Handling

A pair of center ribs and the solid shoulder blocks maintain stable contact with the road to ensure great handling.

■ Shoulder Designed

The closed shoulder design strengthens shoulder blocks for superior handling performance.

■ Wet Performance

The three wide base grooves and wave-like sipes efficiently drain water to improve grip on wet roads and improve driving safety.

■ Handling

A pair of center ribs and the solid shoulder blocks maintain stable contact with the road to ensure great handling.
