H03

SUMMER-HP

A SPECIAL PATTERN DESIGN CREATED TO
REDUCE NOISE
IMPROVE SOFTNESS AND
CUSHIONING TO DAMAGE.

Safety

Four main tread grooves improve safety by providing excellent handling, firm grip, and efficient water drainage.

Tread Compound

The tread compound formulation makes the tread more adhesive for better grip on both dry and wet roads.

Fuel Efficient

The tire is composed of a silica compound that will reduce rolling resistance for better fuel economy.
